Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ SunocoCorp LLC ("SUNC") paid quarterly cash distributions on Feb. 19, 2026 ($0.9317 per common unit), May 20, 2026 ($0.9899 per common unit), Aug. 19, 2026 ($1.0023 per common unit), and Nov. 19, 2026 ($1.0148 per common unit) to unitholders. For U.S. federal income tax purposes, SUNC has elected to be taxed as a corporation and, based on current earnings and profits projections, expects 100% of the February, May, August, and November distributions to be treated as non-taxable return of capital as SUNC is not estimating to have sufficient current or accumulated earnings and profits in 2026 to cause the distributions to be fully taxable as qualified dividends. At the present time, this represents SunocoCorp LLC's best estimate of the treatment of tax year 2026 distributions.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Based on current estimates of SunocoCorp LLC's earnings and profits, the following disributions are expected to be non-dividend distributions and treated as a return of capital for U.S. federal income tax purposes. The portion treated as a non-dividend distribution will reduce a U.S. shareholder's adjusted tax basis in its common units, but not below zero, pursuant to Section 301(c)(2) of the Internal Revenue code.

		Cash Distribution	Taxable	Qualified	ROC	ROC Basis Adjustment
Record Date	Payment Date	Per Unit	Percentage	Dividend	Percentage	Per Unit
02/06/2026	02/19/2026	$0.9317	0.0000%	$0.0000	100.0000%	$0.9317
05/08/2026	05/20/2026	$0.9899	0.0000%	$0.0000	100.0000%	$0.9899
08/07/2026	08/19/2026	$1.0023	0.0000%	$0.0000	100.0000%	$1.0023
11/06/2026	11/19/2026	$1.0148	0.0000%	$0.0000	100.0000%	$1.0148

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ A distribution by a corporation is treated as a dividend to the extent it is paid from the corporation's current or accumulated earnings and profits as defined in Section 316(a). Any portion in excess of current and accumulated earnings and profits would be a non taxable return of capital and would reduce the holder's adjusted basis in the units; if a distribution were to exceed the holder's basis, the excess would be capital gain.
